The new title more accurately represents the range of coursework, both required and elective, within this concentration: Thea 515, 518, 519, 596 which are required all include assignments taking students into the community to work in schools or community organizations. Thea 544 Outreach Tour is a much used elective that is true to its name sending theatrical production and workshops into schools and community centers. The new title also relates to one of the major employment categories for which our graduates are qualified--that is being qualified to be Educational Directors in professional theatres and other non-profit arts and community organizations.
