Deletion-The Anderson School of Management's "3-2" Program allows students completing an undergraduate degree outside the Anderson School of Management to begin their M.B.A. studies early. It is recommended that students complete Business Calculus and Microeconomics before applying. For the first three years of university studies, the student pursues a normal program of undergraduate work. During the junior year of academic work, the student applies for admission to the M.B.A. program of the Anderson Graduate School. Students must not take any management classes prior to their acceptance into this program with the exception of BUSA 1110. In the senior year of academic work, the student begins the first year of the M.B.A. program and also completes the requirements for a bachelor s degree in the undergraduate field using their graduate work to complete a business minor. In the final year of study, the student completes the second-year requirements and electives of the M.B.A. program.
