Does this change affect other departmental program/branch campuses? If yes, indicate below.
Reason(s) for Request (enter text below or upload a doc/pdf file) The Math 412 is seen as too specific in the applications covered to be required of all pure math students and that it does not help prepare students for graduate school in pure mathematics (if they are interested). With the new requirements, those in the pure concentration are still required to master writing rigorous proofs (from 327 and 322, for example) and to learn the essentials of abstract algebra, complex-variable and real-variable analysis. Allowing the students to choose one more class will still let them selections and the still required to their future, whether in graduate school or industry.
Upload a document that inlcudes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications.(upload a doc/pdf file)
