MS in Pharmaceutical Sciences with a concentration in Toxicology and Pharmaceutical Sciences

This Change affects other departmental program/branch campuses

Reason(s) for Request * (enter text below or upload a doc/pdf file)

The research and graduate education focus of the Pharmaceutical Sciences faculty has changed in the recent years and the addition of "Pharmaceutical Sciences" to "Toxicology" now more closely reflects the makeup of the faculty.

Statements to address budgetary and Faculty Load Implications and Long-range planning

* (enter text below or upload a doc/pdf file)

This name change is a result of strategic planning of the Pharmaceutical Sciences faculty and is central to our long-range plans to expand our graduate education. There is no budgetary or faculty load implications with the hiring of three new pharmaceutical science faculty in the past 2 years as well as one search that is underway to add a fourth pharmaceutical scientist and another search to replace a recently retired faculty member who did not participate in graduate education.
