Effective Term and Year

Proposed
Proposed Effective Term and Year
Fall 2024

Existing
Proposed Effective Term and Year
Fall 2006

Justification

Proposed
Program Justification
This correction replaces the incorrect listing of LLSS 556: First and Second Language Development with the correct listing of SPCD 560: Introduction to Bilingual Special Education, which is one of the four prerequisite courses for the GCERT Program. No long-range impacts will be made on budgets, planning, or faculty workload.

Catalog Information

Program Description

The Graduate Certificate in Educational Diagnosis (EDAG) is designed to prepare in-service special education and general education teachers and related professionals to conduct research-based diagnostic assessments. The program prepares these professionals to coherently analyze and integrate relevant information necessary to make appropriate recommendations that assure that students with disabilities have appropriate supports for educational success. The certificate is open to graduate students either in conjunction with a graduate degree or as a stand-alone certificate. The program offers two options, with each developed prospectively with the designated faculty certificate advisor. Both options require successful completion of 18 credit hours of coursework and a final capstone project. Note: The student must earn a grade of B or better in each of the following core EDAG courses before being permitted to take further coursework in the Educational Diagnostician certificate: SPCD 564L, SPCD 566L, SPCD 567L, and SPCD 568L. A student may repeat a course only one time in an attempt to achieve a B or better.
