

Change to Faculty Senate Reorganization Plan

The document approved by the Faculty Senate says that the group of Council chairs will meet twice per month “for the purpose of coordination among themselves” presided over by the President-Elect of the Faculty Senate. In addition, the Council Chairs will meet with the Operations Committee once per month “for the purpose of communicating issues of importance to the Operations Committee.”

In the interests of efficiency and effective communication between the Council Chairs and the Operations Committee, the Reorganization Implementation Committee proposes that the twice monthly meetings of the Council Chairs with the President-Elect be eliminated and that the Council Chairs meet at least once a month with the Operations Committee at a regular weekly meeting of that body.
