Proposed effective term

Semester Fall Year 2016

Course Information

Select Appropriate Program Graduate Degree Program
Name of New or Existing Program Doctor of Medicine
Select Category Degree Degree Type
Select Action Revision

Exact Title and Requirements as they should appear in the catalog. If there is a change, upload current and proposed requirements.

See current catalog for format within the respective college (upload a doc/pdf file)

Does this change affect other departmental program/branch campuses? If yes, indicate below.

Reason(s) for Request (enter text below or upload a doc/pdf file)

The changes are a continuation of the MD Phase I curricular revision that started last year. The new courses are an expansion of the courses approved last year. The new courses build upon each other semester to semester as a continuation of the MD curriculum. We are adding three Doctoring courses and updating the names of the existing courses to better match the content. We are also adding another clinical reasoning course to complete the needed material in this area of study. The curricular map is attached.

[Class of 2019 Curriculum Map .pdf](#)

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications.(upload a doc/pdf file)

[Financial Impact Statement.docx](#)

Are you proposing a new undergraduate degree or new undergraduate certificate? If yes, upload the following documents.

Upload a two-page Executive Summary authorized by Associate Provost. (upload a doc/pdf file)

Upload memo from Associate Provost authorizing go-ahead to full proposal. (upload a doc/pdf file)

Scholarly Project : Population Health													

- Phase I
- Phase II
- Phase III

Financial Impact Statement

The Curricular changes will not impact the SOM MD program budget. The changes are a continuation of what was approved last year and will add no extra cost to the program. All of the courses are being taught by current clinical faculty and will not increase any short term or long term costs to the program.
