## Justification

Proposed

**Concentration Justification**

After two years in existence for this concentration, and after continued correspondence with the UNM School of Law, we are making additions to this existing concentration to allow further customization by each individual student and increased preparation for potential law school admission.

Please note, this proposal will suggest far more changed than really did, but that is due to the way rule builder works, and we found the need to rebuild most of it because we were unable to add additional classes alphabetically or numerically where they belong in the lists.

Existing

**Concentration Justification**

We propose adding this concentration to our Liberal Arts degree to provide more marketable value for students who focus on courses in the area of law and may want to pursue further studies or work in the field.

### Concentration Description

The BA-LAIS concentration in Pre-Law provides the opportunity for students to develop a unique program of study combining courses from multiple University of New Mexico departments and/or colleges. This concentration is available to all students and does not necessarily lead to admission into a law program but is a good undergraduate option for students interested in legal careers and/or eventual graduate law school admission. No official minor is required to be declared with this concentration, but the use of existing departmental minor(s) outside LAIS is encouraged.
