Proposed effective term:

Semester Fall ▼ Year 2009 ▼

Course Information

Select Appropriate Program Undergraduate Degree Program ▼ CIP Code

Name of New or Existing Program * B.S. Ed. Biology

Catalog Page Number 2 Select Category Degree ▼ Degree Type Undergraduate

Select Action Deletion ▼

Exact Title and Requirements as they should appear in the catalog.

See current catalog for format within the respective college (enter text below or upload a doc/pdf file)

This Change affects other departmental program/branch campuses

Reason(s) for Request * (enter text below or upload a doc/pdf file)

There have been no majors enrolled in or graduating with this degree in more than 5 years. The Department of Biology retains no knowledge of when or why this degree was created, nor does it have any information about degree requirements for this program. This degree no longer fits with programs in the College of Education where a degree in Secondary Education with a concentration in Science is offered. If a student wished to complete this degree, we would have no idea what to tell them. Because this degree is no longer in use and no longer meets the needs of the College of Education, it should be removed from the list of degrees offered.

Statements to address budgetary and Faculty Load Implications and Long-range planning * (enter text below or upload a doc/pdf file)

Since no students have been enrolled in this degree program for more than 5 years and since we have no means to advise students about the requirements of this degree, removing the degree will have no budgetary impact.
