☐ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request (enter text below or upload a doc/pdf file)

Many students who obtained an undergraduate degree in something other than accounting followed by a MACCT Professional or Taxation graduate degree wish to further their accounting knowledge in the growing Information Assurance field. They would like to further their careers and/or improve their chances of passing additional certifications available to them. There is currently an IA Certificate Program offered in another department that focuses on ISA Technical courses and requires computer programming experience and/or courses. Our students will not benefit from this program and many firms will not recognize that certificate as beneficial to them or the student.

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications.(upload a doc/pdf file)
