[Revised PT Curriculum Changes_March 2019.pdf](#)

☒ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request (enter text below or upload a doc/pdf file)

These proposed changes are reflective of curricular changes. The new course (609L) content has two distinct subjects that are being taught by two different professors and the course is being split into two distinct courses to reflect these changes. Currently, PT 607L Neurologic evaluation and Treatment is an eight credit course. The two new courses, Management of Neurologic Dysfunction I and II will each be worth four course credits. These changes are in-line with the long-range departmental plans and better reflect the current and proposed curriculum.

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications.(upload a doc/pdf file)
