☐ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request * (enter text below or upload a doc/pdf file)

Added new course RADS 481 pathology to meet the national curriculum and programmatic accreditation standards. Added to CT and MRI 1 yr. certificate Spring semester

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications. *

[Justification for curriculum revision RAD BSRS revisions 2012\[1\].docx](#)

Computed Tomography Certificate

Spring Semester

RADS 421	Computed tomography Clinical II	3	
RADS 411	CT Physics	3	
RADS 481	Medical Imaging Pathology	3	NEW

9

Magnetic Resonance Imaging Certificate

Spring Semester

RADS 461	MRI Clinical II	3	
RADS 451	Physics of MRI II	3	
RADS 481	Medical Imaging Pathology	3	NEW

9

BSRS Curriculum Revisions 10-2012

Rad , CT, MRI

Impact Justification long range planning workload implications

Justification for curriculum revision:

ECON 335- This course topics is currently covered by courses HSCI 378, HSCI 399 which are already in the BSRS curriculum. Majority of our students are completing online courses ECON 335 is a face to face course. Acceptations are being performed regularly to fulfill this course with another course. Replaced ECON 105 and ECON 106 as they were prerequisites for ECON 335.

Replace ECON 335 course in the curriculum with the a CJ course

Created new course RADS 481 Medical Imaging Pathology which would meet the needs of required pathology topic by national curriculum guideline and programmatic accreditation standards.

RADS 481 Medical Imaging Pathology will be offered online. Propose 1 semester per year with approximately 20 students. New Faculty hired 2012 as well as proposed current faculty co teach this course. No classroom space will be required.

RADS 481 Medical Imaging Pathology -will meet the needs of required pathology topic by national curriculum guidelines and programmatic accreditation standards which is a requirement of this program beginning in 2017.

Rad Sciences Program is moving towards programmatic accreditation and will need to incorporate topics specific to radiologic sciences to meet accreditation standards while maintaining as low as total credit hours as possible.
