**Proposed effective term:**

Semester Fall ▼ Year 2014 ▼

**Course Information**

Select Appropriate Program Undergraduate Degree Program ▼  
Name of New or Existing Program \* BS Radiologic Sciences - Nuclear Medicine concentration  
Select Category Major ▼ Degree Type BS  
Select Action Revision ▼

**Exact Title and Requirements as they should appear in the catalog. If there is a change, upload current and proposed requirements.**

See current catalog for format within the respective college (upload a doc/pdf file)

[Bachelor of Sciences in Radiologic Sciences NucS fourth yr changes 10-2012\[1\].docx](#)

☐ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request \* (enter text below or upload a doc/pdf file)

Revision of curriculum required due to MGMT 308 no longer offered to Rad Sciences students. This will need to be scrubbed out of curriculum. ECON 335 is a face to face course and most students are completing course work online.

[Justification for curriculum revision NucS BSRS revisions 2012.docx](#)

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications. \*

BSRS Curriculum Revisions 10-2012  
Nuclear Medicine Fourth Year revision

Bachelor of Sciences in Radiologic Sciences-

Concentration Nuclear Medicine

Fourth Year-Fall Semester

CJ 221	Interpersonal Communication	3	
MGMT 308	Ethical Political Social Environment	3	REMOVE (Replace with HSCI 406 Current problems I)
HSCI 378	Current Problems I	3	
ECON 335	Health Economics	3	REMOVE (Replace with HSCI 481 New course)

---

12

Fourth Year- Spring Semester

CJ 344	Interviewing	3
HSCI 399	Current Problems II	3
HSCI 405	Medical Imaging theory II	3
Hum/Fine Art/ Lang. Elect)		3

---

12

Justification for curriculum revision:

Removal of MGMT 308 is required because Rad Sciences students are no longer allowed to register for the course. It is a required pre-rec in the Anderson School of Management. It is also a requirement for registering student to have a major of management to register for course MGMT 308. Have been requesting acceptations for MGMT 308 with HSCI 406 which is an existing Rad Sciences course..

ECON 335- This course topics is covered by courses HSCI 378, HSCI 399 which are already in the curriculum. Majority of our students are completing online courses ECON 335 is a face to face course. Acceptations are being performed regularly. Replace this course in the curriculum with the new course RADS 481 Medical Imaging Pathology which would meet the needs of required pathology topic by national curriculum guideline and programmatic accreditation standards.

RADS 481 Medical Imaging Pathology -will meet the needs of required pathology topic by national curriculum guidelines and programmatic accreditation standards

BSRS Curriculum Revisions 10-2012

Impact Justification long range planning workload implications  
Justification for curriculum revision:

Removal of MGMT 308 is required because Rad Sciences students are no longer allowed to register for the course. It is a required pre-rec in the Anderson School of Management. It is also a requirement for registering student to have a major of management to register for course MGMT 308. This program has been requesting curriculum acceptations for MGMT 308 with HSCI 406 which is an existing Rad Sciences course.

Current course in HSCI 406 is offered every semester. Nuclear medicine students will only increase course size by 6-8 students a year. No additional faculty or classroom required course is taught online.

ECON 335- This course topics is currently covered by courses HSCI 378, HSCI 399 which are already in the Nuclear Medicine BSRS curriculum. Majority of our students are completing online courses ECON 335 is a face to face course. Acceptations are being performed regularly to fulfill this course in another course.

Replace ECON 335 course in the curriculum with the new course HSCI 481 Medical Imaging Pathology which would meet the needs of required pathology topic by national curriculum guideline and programmatic accreditation standards. Both are 3 credit courses.

HSCI 481 Medical Imaging Pathology will be offered online. Propose 1 semester per year with approximately 20 students. New Faculty hired 2012 as well as proposed current faculty co teach this course. No classroom space will be required.

HSCI 481 Medical Imaging Pathology -will meet the needs of required pathology topic by national curriculum guidelines and programmatic accreditation standards which is a requirement of this program beginning in 2014.

Rad Sciences concentration is moving towards programmatic accreditation and will need to incorporate topics specific to radiologic sciences to meet accreditation standards while maintaining as low as total credit hours as possible.
