

A proposal to eliminate WP, WF, and WNC grades was brought to the Faculty Senate Admissions & Records Committee at the November 2, 2011 meeting. After discussion and review of usage (see below) the A&R Committee endorsed forwarding the proposal to your committees for further review and possible approval.

The proposal is to eliminate WP, WF, and WNC grades for students that have withdrawn and only allow a W grade.

- WP and WNC do not impact GPA but can impact completion rates for financial aid.

- WF impacts GPA just as an F and can also impact completion rates for financial aid.

The W grade will not impact GPA but can impact completion rates for financial aid (just as a WP or WNC does now).

Original Grade Entries from Summer 2006 through 11/4/2011:

Total grades: 1,404,008

WP (545,849): 3.89% of all grades, 98.82% of all WP/WF/WNC grades

WNC (2,404): 0.17% of all grades, 0.44% of all WP/WF/WNC grades

WF (4,093): 0.29% of all grades, 0.74% of all WP/WF/WNC grades
