Form C: Bachelor of Music, Concentration in String Pedagogy

Reasons for Request

1. In item i., addition of our newest technology course, MUS 421 *Introduction to Max Programming for Musicians*, will give more choices to students in fulfilling their music technology requirement.

2. MUS 214 *Piano Proficiency* will be added as item 1. String Pedagogy students must demonstrate a minimum proficiency level on the piano. This is a current requirement, as detailed in the Department of Music Undergraduate Student Handbook. The current process for verifying that the student has passed the examination is not a foolproof record-keeping process, and due to the increased number of students in the various music programs, it has led to some students slipping through the cracks in terms of timing. A number of them forget (or perhaps hope it will be forgotten) that they still have to complete the exam, and they get all the way to their last semester before attempting it for the first time and then often are not able to learn the material sufficiently in time for their planned graduation date. By putting the course into the curriculum, and listing it in their Suggested Course Sequences, we hope to keep them on track.

In addition, the Piano Proficiency course will appear as a CR on the transcript, which will be a clear indication that the requirement has been completed. Addition of the course for this purpose is in line with two other 0-credit, CR/NC courses that currently are required in a number of our degree plans--MUS 391 *Junior Recital* and MUS 491 *Senior Recital*.
