REGISTRAR'S NOTE: THIS FORM REQUESTS CHANGES TO MAJOR REQUIREMENTS AND TO CRP CONCENTRATION REQUIREMENTS: 1) Accurately state the required 38 credits of UNM Core (37CH) + 1 extra science lab (1CH); 2) Within the BAEPD Core requirements, change "Intro. to GIS from any department" to "CRP 483, Intro. to GIS"; 3) Within the CRP Concentration Requirements, change the title of CRP 420 from "Urban Planning Workshop" to "Environmental Design Studio" (Form A to change title has been submitted); 4) Within the CRP Concentration Requirements, change "CRP 462, The Housing Process" to "CRP 462 OR CRP 484, The Housing Process (462) or Neighborhood Planning (484)"; 5) Change the number of credit hours of electives from "16" to "15." This change is necessary because of the extra science lab required on top of the UNM Core. The number "16" for electives, which is how the current catalog lists the electives, actually is inaccurate in terms of the total of 128 CH for the degree. The number of electives should be 15.

This Change affects other departmental program/branch campuses

Reason(s) for Request * (enter text below or upload a doc/pdf file)

To offer an alternative to CRP 462 in the CRP Concentration requirements; to require the GIS class to be from CRP; to change the title of CRP 420; and to correct the number of required electives listed. These changes do not fundamentally change the degree requirements.

Statements to address budgetary and Faculty Load Implications and Long-range planning

* (enter text below or upload a doc/pdf file)

No budgetary impacts. Enrollment in CRP 483, Intro. to GIS, may increase; however, in 2011 the CRP Program hired two new faculty, which will allow the ability to offer this course every year.
