Revision ▼

**Exact Title and Requirements as they should appear in the catalog.**  
See current catalog for format within the respective college (enter text below or upload a doc/pdf file)  
The BS curriculum for Construction Management is being changed by: \* Replacing CE 132L with CE 160L \*  
Replacing ARCH 381 and 382 with CE 371 and CE 478 \* Moving CE 376 and CE 377 into the junior year. The attachment shows the revised curriculum.  
[CONM\\_08.pdf](#)

☐ **This Change affects other departmental program/branch campuses**

**Reason(s) for Request** \* (enter text below or upload a doc/pdf file)  
The changes remove our construction management students from the structures courses taught in Architecture and put all students in this department into the new CE 160L. Other courses are moved within the curriculum as described on the attachment. The movement will put courses in a logical order and keep the semesters reasonably balanced in terms of course difficulty.

**Statements to address budgetary and Faculty Load Implications and Long-range planning** \* (enter text below or upload a doc/pdf file)  
All the faculty in the department will participate in teaching CE 160L. CE 371 will be taught by an adjunct funded by faculty release time and CE 478 is simply resurrecting a course that was deleted two years ago.
