FCO Requests

- Honors College
 - Increase offices and storage
 - Place doors on the Forum for privacy
 - Knock out some walls for better space
 - Better signage
- Staff Council ADA Upgrades Main and North campuses
 - Lighting project

Concerns of approving \$200K for these upgrades and not having a contractor's or architect's estimate.

Members mentioned they would like to wait until we are given a more complete FCO request. Others echoed that we do not have enough time to make an informed decision given that the information was given to Steve a couple days prior to this meeting.

Roseann made a motion to approve the ADA proposal from the Faculty and Staff Council.

All voted in favor

It was proposed that next year we come up with an application process for FCO that would include budget details and construction details to better support a vote of confidence for projects.
