☐ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request (enter text below or upload a doc/pdf file)

We would like to change the B.S. Physics with Biophysics concentration's requirement of MATH311+MATH312 to be PHYC366 instead. Previously, the MATH311 and MATH312 were included to cover vector calculus and PDEs, and this was convenient for students minoring in MATH. However, with the removal of the minor requirement to the B.S. Physics programs it would be more efficient and beneficial for our students to take PHYC366, where the topics are covered with specific applications within physics. PHYC366 has been designed to cover the needs of physics students. In addition to reduce the course load by 3 credit hours for an already credit-heavy degree, this will also align the Biophysics concentration with the other physics concentrations where PHYC366 is the required course.

Upload a document that includes justification for the program, impact on long-range planning, detailed budget analysis and faculty workload implications.(upload a doc/pdf file)

☐ **Are you proposing a new undergraduate degree or new undergraduate certificate? If yes, upload the following documents.**

Upload a two-page Executive Summary authorized by Associate Provost. (upload a doc/pdf file)

Upload memo from Associate Provost authorizing go-ahead to full proposal. (upload a doc/pdf file)
