☒ **Does this change affect other departmental program/branch campuses? If yes, indicate below.**

Reason(s) for Request (enter text below or upload a doc/pdf file)

This proposal outlines a proposed cooperative PhD program in the area of Architectural Engineering to be offered by the Department of Civil Engineering (CE) in cooperation with the Architecture Program and Landscape Architecture Program in the School of Architecture and Planning (SA+P). This proposed program does not represent a new degree but rather is a new area of emphasis within the existing CE department graduate program and will be granted by the School of Engineering (SOE). The emphasis area of Architectural Engineering (AE) represents an area of high demand for domestic and international students. AE programs are common in other parts of the world including Europe, Asia and Latin America. Thus, we expect this program to be desirable to students from those and other regions and marketing efforts will be directed towards such audiences.
