Catalog Information

Program Description

The faculty of The University of New Mexico offers the degree of Bachelor of Integrative Studies (B.I.S.). This program, approved in 2013, is administered through University College. The focused nature of the B.I.S. degree specifically engages students who would benefit from closer collaboration with a faculty mentor(s) through experiential research and/or participation with faculty-led problem solving teams. Students are encouraged to design an individualized program that will prepare them for unique or advanced learning experiences including international, cooperative or professional schools. It may be used as part of a dual degree or as a second degree, and an existing departmental minor is required. Strict compliance with B.I.S. requirements is mandatory for admission to and continuation in the program. Changes to approved Plans of Study may be made only in consultation with an advisor. Students in the Integrative Studies program must meet the general academic regulations of the University for admission, academic standing, and graduation found in the University Catalog.
